

PREMIUM SERIES

8355

1/2 HP AC
BELT DRIVE
GARAGE DOOR OPENER

Smart, Quiet and Energy Efficient.

- MyQ®-enabled, allowing you to monitor and control your garage door opener at any time, from anywhere.
- Powerful 1/2 HP AC motor with belt drive system provides reliable, maintenance free performance year after year.
- Motor Vibration Isolation System delivers smooth, quiet performance. A perfect choice for homes with a living space above or next to the garage.
- Energy-efficient operation consumes up to 75% less power in standby mode.
- Security+ 2.0™ with rolling code technology keeps you safe ensuring a new code is sent to the garage door opener every time the remote control is used, making it virtually impossible for someone to intercept your code.
- Lifetime motor and belt warranty plus 1 year parts warranty.

Control Your Garage Door Any Time, From Anywhere

With MyQ technology, you can stay connected to your home wherever you go via your smartphone, tablet or computer. MyQ technology enables you to monitor and control your garage door opener, gate operator and house lights at any time, from anywhere.

By installing the LiftMaster Internet Gateway and downloading the free MyQ app, you are ready to go.

Accessories Included:

Multi-Function Control Panel (882LM)

- Turns opener lights on/off from inside the garage.
- Programming of accessories is fast and easy with the new learn button.

3-Button Standard Remote Control (893LM)

- Control up to three garage doors, gates or MyQ-enabled lighting accessories with this powerful remote control.
- Multi-frequency Security+ 2.0™ virtually eliminates interference.

At LiftMaster, safety is a major part of our mission. It's our commitment to you and, quite simply, the way we produce products every day. Our LiftMaster® products are designed to move the largest door in your home, safely and securely.

LiftMaster®

8355

1/2 HP AC
BELT DRIVE
GARAGE DOOR OPENER

Unmatched Communication, Safety & Security

LiftMaster® is making your home safer and more responsive to how you live.

- **Security+ 2.0™** technology offers you greater peace of mind knowing that every click changes the code.
- **PosiLock®** electronically secures a closed door and monitors against a forced opening. When the door is down, it is securely locked. If a forced opening is detected, it automatically reactivates the opener to the closed position.
- **The Protector System®** safety sensors keep you and your family safe by projecting an invisible light beam across the garage door opening, automatically reversing the door if anything interrupts the beam. Garage door opener lights turn on automatically when The Protector System infrared beam is broken.
- **Alert-2-Close** warning system provides UL325-compliant audible and visual warnings that the garage door is about to close when using MyQ® technology or a Timer-to-Close enabled control panel (sold separately).

LiftMaster with
MyQ Technology Accessories:
The Freedom to Enjoy Your Life
The 8355 with MyQ technology enables you to tap into even more features for maximum control, convenience and security.

LiftMaster Internet Gateway (Model 828LM)

Connect to the internet so you can control your garage door opener or gate operator from anywhere via smartphone, tablet or computer.

Remote Light Control (Model 825LM)

Operate any lamp with your garage door opener remote control or from your smartphone, tablet or computer via the LiftMaster Internet Gateway.

Garage and Gate Monitor (Model 829LM)

Monitor and close your garage door or gate from any room in the house.

Remote Light Switch (Model 823LM)

Control household lights with your garage door opener remote control or from your smartphone, tablet or computer via the LiftMaster Internet Gateway.

Convenience When You Need It

MAX Wireless Keyless Entry (Model 877MAX)

Features Security+ 2.0™ technology to open or close your garage door with a secure, private 4-digit code. Program temporary access codes for visitors or delivery and service personnel. Works with LiftMaster garage door openers manufactured since January 1993.

Motion Detecting Control Panel with Timer-to-Close (Model 881LM)

This motion-detecting control panel turns on the garage door opener lights as soon as you walk into your garage. It is also equipped with Timer-to-Close so that the door closes automatically after a pre-programmed number of minutes. A great convenience when your hands are full.
